GREENBERG GLUSKER BENEFITS FROM LEVIT & JAMES' BEST AUTHORITY® TABLE OF AUTHORITIES SOFTWARE

Leesburg, VA – Feb. 1, 2010...[Levit & James, Inc. \(www.levitjames.com\)](http://www.levitjames.com) has announced that Los Angeles-based [Greenberg Glusker Fields Claman & Machtinger LLP \(www.greenbergglusker.com\)](http://www.greenbergglusker.com) has successfully implemented [Best Authority®](#) software and is completing an 18-month review of the product. Best Authority helps the firm's secretaries and word processors build a [Table of Authorities](#), or "TOA," dramatically faster and with more ease and efficiency than the firm's previous product, FullAuthority® from LexisNexis®.

Greenberg Glusker Applications Specialist Joseph Pinkney was a beta tester for the original version of Best Authority. According to Pinkney, Best Authority finds citations more reliably than FullAuthority did.

Pinkney notes, "FullAuthority's ability to pick out citations was mediocre, to say the least. The program was only catching 70 percent of the citations which means it took twice the amount of work in cross-checking than creating the TOA in Word alone. Beyond that, FullAuthority's process was too tedious for what it actually accomplished. You had to copy, paste and format the TOA after you had already used the program to accept and reject the citations. The process simply was not efficient."

"Best Authority catches citations that FullAuthority could not. It even finds the one citation in a brief that isn't formatted correctly. Best Authority is intuitive and it simplifies and streamlines the TOA creation process," Pinkney says.

Pinkney also points out that Best Authority contributes to the firm's professionalism by giving the document a high-level presentation. He says that the best thing about Best Authority is that it delivers a quality solution without the hassle of other products, and it helps the firm to serve its clients more effectively.

Pinkney says, "A professional-looking TOA showcases your firm's work in a better light. A document created in Best Authority bolsters your firm's confidence and your clients' confidence, and confidence helps win cases."

"We are extremely pleased to have Greenberg Glusker as a customer," Levit & James' Vice President Ian Levit says. "Best Authority significantly reduces the time it takes to build a Table of Authorities and dramatically streamlines the creation process. We are glad that the software is performing well for their firm."
